Projects

Food Delivery Website | *HTML, CSS, JAVASCRIPT* Nov. 2021 - Feb. 2022

Developed a responsive Food Delivery Website using HTML, CSS, and JavaScript for Ordering and delivery of food from local restaurants. The website includes user registration, restaurant listings, menu display, order tracking, and secure payment, enhancing convenience for both customers and restaurants.

Pet Shop Website | *REACT JS, CSS, JAVASCRIPT* June. 2024 - Aug. 2024

Developed a pet shop web application using React.js and Tailwind CSS. Implemented dynamic product listings, user authentication, and a responsive design, enhancing user experience and accessibility.
